Wogolin Playground Concept Form

HAVE YOUR SAY

In consultation with the community the need has been determined for an intergenerational playground and meeting space. The CDO has been in discussion and consultation with landscape architects and nature playground specialists, Nature Play Solutions, regarding plans for the park in Wickepin stretching along Wogolin Rd and wrapping around Albert Facey Homestead. Nature Play Solutions have created a plan encompassing all the elements that have been requested by the community. They have referenced the past of Wickepin with the inclusion of the tall climbing tower mimicking the Wickepin Water Tower which was pulled down in the 1970's. Care has been exercised to include all ages and stages of development including disability access.
