# QUESTIONS FROM THE PUBLIC

The Shire of Wickepin welcomes community participation during public question time. The following is a summary of procedure and a guide to completion of the required form.

- a. The person asking the question is to give their name and address prior to asking the question.
- b. Questions are to be directed through the chair, with the Presiding Member having the discretion of accepting or rejecting a question and the right to nominate a Councillor or Officer to answer.
- c. In order to provide an opportunity for the greatest portion of the gallery to take advantage of question time, questions are to be as succinct as possible. Any preamble to questions should therefore be minimal and no debating of the issue between the Gallery, Councillors or Officers is permissible.
- d. Where the Presiding Member rules that a member of the public is making a statement during public question time, then no answer is required to be given or recorded in response.
- e. Questions which are considered inappropriate; offensive or otherwise not in good faith; duplicates or variations of earlier questions; relating to the personal affairs or actions of Council members or employees; will be refused by the Presiding Member as 'out of order' and will not be recorded in the minutes.
- f. Where a member of the public submitting a question is not physically present at the meeting, those questions will be treated as an item of correspondence and will be answered in the normal course of business (and not be recorded in the minutes).
- g. Questions from members of the public that do not comply with the Rules of Question Time or do not abide by a ruling from the Presiding Member, or where the member of the public behaves in a manner in which they are disrespectful of the Presiding Member or Council, or refuse to abide by any reasonable direction from the Presiding Member, will be ruled 'out of order' and the question will not be recorded in the minutes.
- h. Answers to questions provided in good faith, however, unless reasonable prior written notice of the question is given, answers should not be relied upon as being totally comprehensive.
- i. Where a question (compliant to these rules) is raised and is unable to be answered at the meeting, the question shall be 'taken on notice' with an answer being given at the next appropriate Council Meeting.
- j. Public Question Time is set for a maximum period of 15 minutes, and will terminate earlier should no questions be forthcoming.
- k. To enable all members of the public a fair and equitable opportunity to participate in Public Question Time, each person shall be provided a maximum two minutes time limit in the first instance, in which to ask a maximum of two questions (whether these are submitted 'in writing' or 'from the floor'). A question may include a request for the tabling of documents where these are relevant to an issue before Council.
- I. Questions to be asked at the meeting will be registered, and the priority for asking questions shall be firstly 'questions on which written notice has been given prior to the meeting' (that is, prior to 12 noon on the day immediately preceding the meeting) and secondly, 'questions from the floor'.
- m. Should there be time remaining on the initial period for Public Question Time (i.e. 15 minutes) after all members of the public have posed their initial allotment of two questions, the Presiding Member will then allow members of the public to sequentially (in accordance with the register) ask a further two questions (with a two minute time limit) until the initial period for Public Question Time has expired.
- n. Any extension to the initial period for Public Question Time is to be limited to a period that will allow sufficient time for any remaining members of the public to ask their initial allotment of two questions.

# 6. Appointment of Committee Members

The following guidelines are to be established when appointing members of the Governance, Audit and Community Services Committee:

- The Governance, Audit and Community Services Committee is to consist of three or more persons to exercise powers and discharge the duties conferred on it;
- Council calls for written nominations for members of the Governance, Audit and Community Services Committee at the end of each year. Committee members are appointed by Council at the December Ordinary Council meeting by an absolute majority decision;
- At least three of the members, and the majority of the members, are to be elected members;
- If the Shire of Wickepin wishes to appoint one or more persons other than elected members to the Committee, it should ensure that they have the requisite knowledge and skills to provide benefit to the Committee.

- The CEO is not to be a member of the Committee and may not nominate a person to be a member or have a person to represent him/her as a member of the Committee;
- An employee is not to be a member of the Committee;

# 7. Appointment of Committee Chair

A chairperson is appointed every second year at the first Governance, Audit and Community Services Committee Meeting after the Local Government elections by the committee members.

# 8. Meeting Frequency

Annual Compliance Audit Return 2018 under separate cover

# Summary:

Council is being recommended to adopt the Annual Compliance Audit Return for the year 1 January 2018 to 31 December 2018 and forward the signed completed Compliance Audit Return to the Executive Director of the Department of Local Government by the due date being 31 March 2019.

# **Background**

It is a statutory requirement for local councils to prepare and present the Annual Wickepin – Compliance Audit Return 2018 to the audit committee for review prior to council for adoption. The final report is then required to be submitted to the Executive Director of Local Government Department by 31 March 2019.

# Comments:

A local government is to carry out a compliance audit for the period 1 January to 31 December in each year after carrying out a compliance audit the local government is to prepare a compliance audit return in a form approved by

the Minister. The local government's audit committee is to review the compliance audit return and is to report to the council the results of that review.

There were no questions that have a No recorded against them in the CAR return for 2018.

# **Statutory Environment:**

Section 7.13(1) of Local Government Act.

Local Government (Audit) Regulations 1996

# 14. Compliance audits by local governments

- (1) A local government is to carry out a compliance audit for the period 1 January to 31 December in each year.
- (2) After carrying out a compliance audit the local government is to prepare a compliance audit return in a form approved by the Minister.
- (3A) The local government's audit committee is to review the compliance audit return and is to report to the council the results of that review.
  - (3) After the audit committee has reported to the council under sub-regulation (3A), the compliance audit return is to be
    - (a) presented to the council at a meeting of the council; and
    - (b) adopted by the council; and
    - (c) recorded in the minutes of the meeting at which it is adopted.

# 4.1 Chief Bushfire Control Officer Report – No Report

# 4.2 General Discussion

<u>Tim Heffernan</u> – Raised the issue with the Yealering Townsite not having any water supply for hydrants during power failures.

Action - CEO to raise the issue with Water Corporation

Tim Heffernan – Raised the issue of using the WhatsApp.

Keith Parnell – Raised the issue of the Harrismith and Tincurrin areas losing land and mobile phone coverage during power outages as there appears to be no back up power systems in place. This is important as communication systems are very important during emergencies and they need to be working when the power goes out.

# Moved Tim Heffernan / Seconded Nathan Astbury

That the Shire of Wickepin be requested to write to the federal minister for communications and Telstra requesting the Harrismith and Tincurrin areas, have back up power systems put in place as soon as possible.

- General maintenance at Lake Yealering, Harrismith.
- Yealering Tree In the central playground a sugar gum stump still to be removed.

# Plant and Equipment

• Bobcat – My recommendation is Clark Equipment Bob cat T650 .This decision is based on the bobcat T650 has suspension in the track system, which gives more comfort for the operator. A lot of work that the bobcat will be doing will be over rough terrain. With other bob cat that we tested, has a ridged tracks system could lead to operator fatigue and dislike to the plant which could lead to damage to plant and refusal to drive the plant All the shire operators that have driven the two bobcats that have been inside the budget value that was set, have all preferred the bobcat T650 and as the Works Manager I have to support my team's decision.

.

# Other Information

- Construction grader driver Rob Whibley has taken on the challenge of the grader driver and is showing very good signs, that he could be a good operator. Well done Rob.
- Rob Whibley is showing very good signs he could be a good operator well done Rob.
- We have two good candidates for the plant operator role.
- The Bus Tour with Councillors went well. I will proceed with the road program for next year it was a good day.

The Manager of Works recommends the purchase of the Bobcat T650 Compact Track Loader with the option of the Digga Rotary Axe and new Plant trailer to suite the Bobcat T650 Track Loader at a changeover price of \$127,920 excluding GST. This includes trading Council existing 2010 Bobcat Skid Steer Loader WK 2489 and 1988 Flat Top Trailer for Bob Cat WK 3518.

The CEO has been conatcted by a Yealering rate payer who believes Council should the keep old Bobcat and Trailer and leave it at Yealering for use by the garden staff at Yealering.

If Council was to consider keeping the old Bobcat Skid Steer loader and trailer it would mean the changer price would be \$152,175 which is \$19,125 over the 2017/2018 adopted budget figures.

At this moment in time the CEO can not see the reason to keep the old Bobcat at Yealering as if required the new bobcat will be used for jobs in Yealering.

## **Statutory Environment:**

Local Government Act 1995 Local Government (Financial Management) Regulations 1996

## **Policy Implications:**

### 2.1.17 TENDERS OF BUDGETED ITEMS

OBJECTIVE: To call tenders for all items on the current adopted budget for all items above \$100,000.

The CEO is authorised to call tenders for all items on the current adopted budget over \$100,000.

Upon receipt of tenders by the CEO, all tenders are to be submitted to Council for approval, including, where necessary comparative schedules setting out major aspects of each tender. Council shall give due consideration to local businesses within the Shire of Wickepin, irrespective of prices.

In addition to tender conditions set out in Part 4 of the Local Government (Functions and General) Regulations 1996 (WA), the following conditions apply:

- tenders are to arrive at the Shire of Wickepin admin office marked "Tender"; and
- tenders to close not less than 14 days prior to an ordinary meeting of Council.

### 3.1.7.3 PURCHASING THRESHOLDS AND PROCESSES

The requirements that must be complied with by the Local Governments, including purchasing thresholds and processes, are prescribed within the Local Government (Functions and General) Regulations 1996 and this Purchasing Policy.

Purchasing that is **below \$100,000** in total value (excluding GST) must utilise a Request for Quotation process, either direct to the market or through a panel of pre-qualified suppliers (e.g. WALGA Preferred Supply Contract).

Purchasing that **exceeds \$100,000** in total value (excluding GST) must be put to public Tender <u>unless</u> a regulatory Tender exemption is utilised by the Shire of Wickepin. Tender exemptions apply in the following instances:

- an emergency situation as defined by the Local Government Act 1995;
- the purchase is from a WALGA Preferred Supply Contract or Business Service. All WALGA Preferred Supply Contracts have been established utilising a competitive public procurement process to pre-qualify suppliers that meet compliance requirements and offer optimal value for money to the Shire of Wickepin sector.
- the purchase is from a Department of Finance Common Use Arrangements (where Local Government use is permitted), a Regional Local Government or another Local Government;
- the purchase is under auction that has been authorised by Council;
- the contract is for petrol, oil, or other liquid or gas used for internal combustion engines; or
- any of the other exclusions under Regulation 11 of the Local Government (Functions and General) Regulations 1996 apply.
- Determining purchasing value is to be based on the following considerations:
- The actual or expected value of a contract over the full contract period (including all options to extend); or
- The extent to which it could be reasonably expected that the Local Government will continue to purchase a particular category of goods, services or works and what total value is or could be reasonably expected to be purchased.

Note: When making a decision about whether to conduct a public Tender or utilise a Tender exempt arrangement, the Shire of Wickepin should compare the cost and benefits of both processes.

The compliance requirements, time constraints, costs and risks associated with a public Tender should be evaluated against the value delivered by such a process. This should then be compared with the costs and benefits of using a Tender exempt arrangement which include direct access to pre-qualified suppliers, full regulatory compliance, risk mitigation, administrative efficiencies and cost savings.

## Purchasing Thresholds – Requirements

Below is the purchasing process that must be followed based on the actual or expected value of each purchase by the Shire of Wickepin:

Purchasing	Purchasing Requirements
Thresholds	
(ex GST) Up to \$1,000	Obtain at least 2 verbal or written quotations from suppliers supported by evidence of the quotation (e.g. email, fax or record of quotation) in each instance. All quotations from suppliers should be in writing.
	OR
	Obtain quotations directly from a pre-qualified panel of suppliers which include WALGA Preferred Supply Contracts. It is recommended that wherever possible, the Shire of Wickepin source multiple competitive quotations (at least two Preferred Suppliers) using a simple quotation process either through Equote's or directly in writing.
\$1,000 - \$39,999	Obtain at least 3 written quotations (e.g. email, fax or original copy).
	OR
	Obtain quotations directly from a pre-qualified panel of suppliers which include WALGA Preferred Supply Contracts. It is recommended that wherever possible, the Shire of Wickepin source multiple competitive quotations (at least three Preferred Suppliers) using a simple quotation process either through Equote's or directly in writing.
\$40,000 - \$99,999	Obtain at least 3 written quotations (e.g. email, fax or original copy) from suppliers containing price and specification of goods and services. The procurement decision is to be based on all value for money considerations in accordance with the definition stated within this Policy.
	OR
	Obtain quotations directly from a pre-qualified panel of suppliers which include WALGA Preferred Supply Contracts. It is recommended that wherever possible, the Shire of Wickepin source multiple competitive quotations (at least three Preferred Suppliers) using a formal Request for Quotation process either through Equote's or directly in writing.
\$100,000 and above	Conduct a public Tender process in accordance with this policy and the WALGA Procurement Handbook. The procurement decision is to be based on value for money considerations in accordance with the definition stated within this Policy.
	OR
	Obtain quotations directly from a Tender exempt and pre-qualified panel of suppliers which include WALGA Preferred Supply Contracts. It is recommended that wherever possible, the Shire of Wickepin source multiple competitive quotations (at least three Preferred Suppliers) using a formal Request for Quotation process either through Equote's or directly in writing.

Where considered necessary, the Shire of Wickepin may consider calling public Tenders in lieu of undertaking a Request for Quotation for purchases under the \$100,000 threshold (excluding GST).

This decision should be made after considering the benefits of this approach in comparison with the costs, risks, timeliness and compliance requirements and also whether the purchasing requirement can be met through a pre-qualified panel of suppliers such as WALGA Preferred Supply Contracts.

If a decision is made to undertake a public Tender for contracts of less than \$100,000, a Request for Tender process entailing all the procedures for tendering outlined in this Policy and the WALGA Procurement Handbook must be followed in full.

**Note:** The thresholds specified in the Purchasing Thresholds Table on page 4 are determined purely on dollar values; however the Local Government (Functions and General) Regulations 1996 also allow quotation criteria to be set for different types of goods, services or works; suppliers; contracts; or any other item that the Local Government considers appropriate.

## **Purchasing Procedures**

## Tender or Request for Quotation through Tender Exempt Panels (\$100,000 or over in value)

For the procurement of goods, services or works where the value exceeds \$100,000, the Shire of Wickepin must either undertake either a:

- a public Tender process; or
- a Request for Quotation process from a Tender exempt panel of pre-qualified suppliers including WALGA Preferred Supply Contracts (which are specifically designed around Local Government requirements) or State Government Common Use Arrangements (where Local Government access is permitted).

When accessing a Tender exempt panel of pre-qualified suppliers, such as a WALGA Preferred Supply Contract, the Shire of Wickepin must utilise a Request for Quotation process through Equote's or in writing direct with the Preferred Suppliers.

In undertaking a Request for Quotation, the Shire of Wickepin does not need to request that pre-qualified suppliers provide the type of information that is normally provided in a public Tender. The fact that WALGA has already undertaken a public procurement process and has pre-qualified each Preferred Supplier means that this information has already been obtained and validated.

Additionally, the Shire of Wickepin does not need to use its own contractual terms and conditions given that WALGA has already developed best practice contractual terms and conditions which have been accepted by every Preferred Supplier. These contractual terms and conditions ensure that the interests of the Shire of Wickepin are fully protected.

Keeping the scope of the Request for Quotation focused on the Specification and the selection criteria that will be utilised by the Shire of Wickepin to assess different quotations will ensure that only the required information is sought from Preferred Suppliers and the response process is streamlined.

Responses from Preferred Suppliers should be in writing and contain the price and a sufficient amount of information that addresses the Specification and selection criteria provided by the Shire of Wickepin.

## Equote's

Equote's is a secure, web-based procurement tool that streamlines and simplifies the Request for Quotation process with WALGA Preferred Suppliers at the same time as facilitating purchasing compliance, probity and control over all aspects of purchasing.

All WALGA Preferred Supply Contracts are available on Equote's and all necessary contract information is preloaded to enable informed procurement choices, including contract details, insurances, pricing (where applicable) etc. Local Governments can also upgrade Equote's to include their local suppliers.

## Request for Quotation Process

In the event that the Shire of Wickepin elects to call a Request for Quotation, the following process should be followed:

The Request for Quotation documentation must include:

- written Specification that communicates the requirement(s) in a clear, concise and logical fashion;
- selection criteria to be applied;
- price schedule;
- conditions of responding; and
- validity period of offer.

Invitations to quote must be issued simultaneously to ensure that all parties receive an equal opportunity to respond. This can be done through Equote's or directly to suppliers.

New information that is likely to change the requirements must be offered to all prospective suppliers at the same time.

Written responses must be assessed for compliance, then against the selection criteria, and then value for money. All evaluations must be documented.

Respondents must be advised in writing as soon as possible after the final determination is made and approved.

For this procurement range, selection must be based on value for money (in accordance with the definition stated within this Policy) and which quotation would be most advantageous to the Shire of Wickepin.

The evaluation process should include an assessment of qualitative factors such as quality, stock availability, accreditation, time for completion or delivery, warranty conditions, technology, maintenance requirements, organisation's capability, previous relevant experience, environmental and social impacts, corporate social responsibility and any other relevant factors as part of the assessment of the supplier's response.

The Shire of Wickepin can utilise the flexible nature of WALGA Preferred Supply Contracts to leverage optimal value for money through the competitive nature of the quotation process and based on their purchasing intent (e.g. volume or value of items to be purchased, period of contract etc.) Additionally, when using a WALGA Preferred Supply Contract the Shire of Wickepin may negotiate with the highest rated Preferred Supplier from the evaluation process. This does not rule out the other Preferred Suppliers until successful conclusion of negotiations via award of contract.

The responsible officer is expected to demonstrate due diligence when conducting a Request for Quotation process and must comply with any record keeping and audit requirements. Record keeping requirements must be maintained in accordance with record keeping policies.

**Note:** While the pre-qualified nature of WALGA Preferred Supply Contracts provides Local Governments with the capacity to negotiate with Preferred Suppliers, this is generally not permitted within a public Tender process due to legal process contract risks.

It is always wise to develop a negotiation plan and have a strategy in place. Preparation is the key. The use of the Negotiation Planning Template within the WALGA Procurement Handbook is highly recommended.

#### Public Tender

Before Tenders are publicly invited, the Shire of Wickepin must record the decision to invite Tenders (which is to be recorded in the Tender Register) and must determine in writing the criteria for deciding which tender should be accepted.

The Evaluation Panel must be established prior to the advertising of the Tender and include a mix of skills and experience relevant to the nature of the purchase. For Tenders with a total estimated value (ex GST) of between \$40,000 and \$99,999, the Evaluation Panel must contain a minimum of 2 members. For Tenders with a total estimated value (ex GST) of \$100,000 and above, the Evaluation Panel must contain a minimum of 3 members.

A Tender Notice must be advertised in a State wide publication e.g. "The West Australian" newspaper (Local Government Tenders section), preferably on a Wednesday or Saturday.

The Tender must remain open for at least 14 days after the date the Tender is advertised. Care must be taken to ensure that 14 full days are provided as a minimum.

The Tender Notice must include:

- a brief description of the goods or services required;
- information as to where and how Tenders may be submitted;
- the date and time after which Tenders cannot be submitted; and
- a contact person to supply more detailed information if required. Detailed information must include such information as the Shire of Wickepin decides should be disclosed to those interested in submitting a Tender response, detailed specifications of the goods or services required, the criteria for deciding which Tender response should be accepted, whether or not the Shire of Wickepin has decided to submit a Tender response and whether or not Tender responses can be submitted by facsimile or other electronic means, and if so, how Tenders may so be submitted.

Tenders must not be made available (counter, mail, internet, referral, or other means) without a robust process to ensure the recording of details of all parties who acquire the documentation. If clarifications, addendums or further communication are required prior to the close of Tenders, all potential Tenderers must have equal access to this information in order for the Shire of Wickepin not to compromise its duty to be fair.

If, after the Tender has been publicly advertised, any changes, variations or adjustments to the Tender document and/or the Conditions of Tender are required, the Shire of Wickepin may vary the initial information by taking reasonable steps to give each person who has sought copies of the Tender documents notice of the variation.

A Tender response that is not received in full in the required format by the advertised Tender Deadline must be rejected.

No tenders are to be removed from the Tender Box or opened (read or evaluated) prior to the Tender Deadline.

Tenders are to be opened in the presence of the Chief Executive Officer's delegated nominee and preferably at least one other Shire of Wickepin officer. The details of all Tender responses received and opened must be recorded in the Tenders Register. Tender responses are to be opened in accordance with the advertised time and place. There is no obligation to disclose or record tendered prices at the Tender opening, and price information should be regarded as commercial-inconfidence to the Shire of Wickepin. Members of the public are entitled to be present.

The Tenderer's offer form, price schedule and other appropriate pages from each Tender shall be date stamped and initialled by at least 2 Shire of Wickepin officers present at the opening of Tender responses.

Where the Shire of Wickepin has invited Tender responses and no compliant submissions have been received; direct purchases can be arranged on the basis of the following:

- a sufficient number of quotations are obtained;
- the process follows the guidelines for seeking quotations (see Request for Quotation process on page 6);
- the specification for goods and/or services remains unchanged; and
- purchasing is arranged within six (6) months of the closing date of the lapsed Tender.

Tender responses that have not been rejected must be assessed by the Shire of Wickepin by means of a written evaluation against the pre-determined criteria. The Evaluation Panel must assess each Tender response that has not been rejected to determine which response is most advantageous.

If, after the Tender has been publicly advertised and a successful Tenderer has been chosen, and before the Shire of Wickepin and Tenderer have entered into a contract, a minor variation may be made by the Shire of Wickepin. A minor variation may not alter the nature of the goods and/or services procured, nor may it materially alter the specification or structure provided for by the initial Tender.

Each Tenderer shall be notified of the outcome of the Tender following Council resolution or appropriate delegated authority. Notification must include:

- The name of the successful Tenderer.

- The total value of consideration of the winning offer.

The details and total value of consideration for the winning offer must be entered into the Tenders Register at the conclusion of the Tender process.

For this procurement range, selection of Tenderer must be based on value for money (in accordance with the definition stated within this Policy) and which Tender response would be most advantageous to the Local Government.

To comply with the requirements of Regulation 18(4) of the Local Government (Functions and General) Regulations 1996, the Tender evaluation process must provide a written assessment of the extent that each Tender response satisfies the criteria which was set prior to advertising the Tender. This should include an assessment of qualitative factors such as quality, stock availability, accreditation, time for completion ordelivery,

warranty conditions, technology, maintenance requirements, organisation's capability, previous relevant experience, environmental and social impacts, corporate social responsibility and any other relevant factors as part of the assessment of the Tender response.

The responsible officer is expected to demonstrate due diligence when conducting a public Tender and must comply with any record keeping and audit requirements.

Note: The WALGA Procurement Handbook includes a model Request for Tender Template which provides best practice documentation and will assist with recording details.

## Request for Quotation (\$40,000 or over to \$99,999 in value)

For the procurement of goods or services where the value exceeds \$40,000 but is less than \$99,999, it is recommended that at least 3 written quotations be obtained from the market or from a pre-qualified panel of suppliers including WALGA Preferred Supply Contracts.

## Process for Request for Quotation

Provide a Reguest for Quotation that includes as a minimum:

- written Specification that communicates the requirement(s) in a clear, concise and logical fashion;
- selection criteria to be applied;
- price schedule;
- conditions of responding; and
- validity period of offer.

Invitations to quote must be issued simultaneously to ensure that all parties receive an equal opportunity to respond. This can be done through Equote's or directly to suppliers.

New information that is likely to change the requirements must be offered to all prospective suppliers at the same time.

Written responses must be assessed for compliance, then against the selection criteria, and then value for money. All evaluations must be documented.

Respondents must be advised in writing as soon as possible after the final determination is made and approved.

Requests for Quotation to a panel of pre-qualified suppliers, such as a WALGA Preferred Supply Contract, should be undertaken through Equote's or in writing directly with the Preferred Suppliers. Responses from Preferred Suppliers should be in writing and contain the price and a sufficient amount of information that addresses the Specification and selection criteria provided by the Shire of Wickepin.

For this procurement range, selection of supplier should be based on value for money (in accordance with the definition stated within this Policy) and the response which would be most advantageous to the Shire of Wickepin.

The evaluation of quotations should consider qualitative factors such as quality, stock availability, accreditation, time for completion or delivery, warranty conditions, technology, maintenance requirements, organisation's capability, previous relevant experience, environmental and social impacts, corporate social responsibility and any other relevant factors as part of the assessment of the quote).

The Shire of Wickepin can utilise the flexible nature of WALGA Preferred Supply Contracts to leverage optimal value for money through the competitive nature of the quotation process and based on their purchasing intent (e.g. volume or value of items to be purchased, period of contract etc). Additionally, when using a WALGA Preferred Supply Contract the Shire of Wickepin may negotiate with the highest rated supplier from the evaluation process. This does not rule out the other suppliers until successful conclusion of negotiations via award of contract.

The responsible officer is expected to demonstrate due diligence seeking quotes and to comply with any record keeping and audit requirements. Record keeping requirements must be maintained in accordance with record keeping policies.

**Note:** The WALGA Procurement Handbook has a model Request for Quotation Template which provides best practice documentation and will assist with recording details.

## Request for Quotation (under \$40,000 in value)

## Written Requests for Quotations

For the procurement of goods or services where the value is under \$40,000, it is recommended that at least 3 written quotations be obtained from the market or from a pre-qualified panel of suppliers including WALGA Preferred Supply Contracts.

*In the event that the Shire of Wickepin elects to call a Request for Quotation, the following process should be followed:* 

- Provide a simple Request for Quotation document that outlines the key elements of the process and requires written quotations.
- Provide an appropriately detailed written Specification that communicates the requirement(s) in a clear, concise and logical fashion.
- Invitations to quote must be issued simultaneously to ensure that all parties receive an equal opportunity to respond. This can be done through Equote's or directly to suppliers.
- New information that is likely to change the requirements must be offered to all prospective suppliers at the same time.
- Written responses must be assessed for compliance, then against the selection criteria, and then value for money. All evaluations must be documented.
- Respondents must be advised in writing as soon as possible after the final determination is made and approved.

Requests for Quotation to a panel of pre-qualified suppliers, such as a WALGA Preferred Supply Contract, should be undertaken through Equote's or in writing directly with the Preferred Suppliers. Responses from Preferred Suppliers should be in writing and contain the price and a sufficient amount of information that addresses the Specification and selection criteria provided by the Shire of Wickepin.

The responsible officer is expected to demonstrate due diligence seeking quotes and to comply with any record keeping and audit requirements.

**Note:** The WALGA Procurement Handbook has a model Request for Quotation Template which provides best practice documentation and will assist with recording details.

#### Verbal Requests for Quotations

For the procurement of goods or services where the value is under \$1,000 the Shire of Wickepin may undertake a verbal Request for Quotation process.

At least 2 quotations must be obtained from the market or the Shire of Wickepin may purchase from a Tender exempt panel of pre-qualified suppliers including WALGA Preferred Supply Contracts.

The requirements relating to verbal quotations are:

- Ensure that the requirement/specification is clearly understood by the Shire of Wickepin employee seeking the verbal quotations.
- Ensure that the requirement is clearly, accurately and consistently communicated to each of the suppliers being invited to quote.
- Ensure that all quotations from suppliers are in writing and/or refer to a pricing list in an email, website or catalogue.

The responsible officer is expected to demonstrate due diligence seeking quotes and to comply with any record keeping and audit requirements.

## **Financial Implications:**

The changeover figures in the adopted budget for 2018/2019 are as follows

P2489 2010 Bobcat Skid Steere	\$ 95,550
P3518 1988 Flat Top Trailer for Bob Cat	\$ 37,500
TOTAL	\$133,050

The Equote supplied by Clarke Equipment for a Bobcat T650 Compact track Loader with plant trailer and with the additional option of a Digga Rotary Axe at a changeover price of \$ 127,920 GST Exclusive including the trading Council existing 2010 Bobcat Skid Steer Loader WK 2489 and 1988 Flat Top Trailer for Bob Cat WK 3518 is \$5,1030 under budget.

If Council was to consider keeping the old Bobcat Skid Steer loader and trailer it would mean the changer price would be \$152,175 which is \$19,125 over the 2018/2019 adopted budget figures.

## **Strategic Implications:**

## infrastructure

SHORT TERM STRATEGY	MEDIUM TERM STRATEGY	POINT OF MEASUREMENT	10 YR OUTCOME

Author: Mark Hook, Chief Executive Officer

Disclosure of Interest: Nil

Date of Report: 12 April 2019

#### **Enclosure/Attachments:**

AMMS Upgrade Request Cuballing Est Road CBH AMMS Information Sheet AMMS FAQ's Myths about AMMS

## **Summary:**

Council is being requested to allow Main Roads Heavy Vehicle Services to issue CBH an AMMS 4.3 permit on the Cuballing East Road.

## Background:

Council has received the following email from Chase Rampant, Heavy Vehicle Services Officer on the 20th February 2019.

Heavy Vehicle Services (HVS) has received an application to add the following section of road(s) onto the Restricted Access Vehicle (RAV) Network:

Road Owner	Road No.	Road Name	From Location (SLK)	To Location (SLK)	Current Network	Requested Network
Shire of Cuballing	4050006	Cuballing East Rd	Great Southern Hwy & Campbell St (0.00)	Cuballing East Rd & Wandering Rd (18.11)	RAV 6	N4.3
Shire of Wickepin	4290024	Cuballing East Rd	Narrogin Kondinin (0.00)	Cuballing East Rd & Wandering Rd (2.93)	RAV 6	N4.3

If you require further information to assist in determining support for this application please contact the applicant directly. Please provide HVS with any comments relating to road condition, planning conflicts, development issues etc. that may be impacted by adding the above road(s) onto the RAV network. Please be aware if the road is deemed unsuitable to be added to a RAV network when assessed it may be considered for a Restricted Local Access Permit (RLAP). This permit is for individual access to a road with a specific combination and with suitable conditions to mitigate any risk. It would be appreciated if you could provide your comment to HVS within four (4) weeks of this email to enable HVS to consider any potential issues as part of our assessment process. It is important to ensure that any comments are

provided with sufficient reasoning, as this may be used to justify the decision to the applicant. Should you require any further information or assistance regarding this request, please contact the HVS Route Assessment team on 138 486 or <a href="https://www.gov.au">https://www.gov.au</a>

#### Comments:

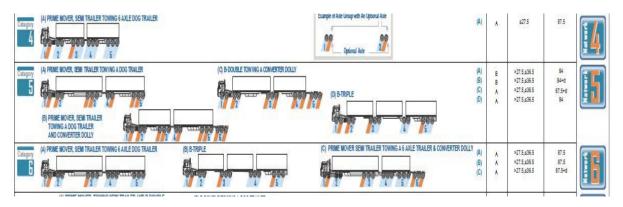

The request from Heavy Vehicle Services is actually to allow CBH an AMMS 4.3 permit on the Cuballing east Road as the Cuballing Est Road is already a RAV 6.

The CEO has been advised by the CEO of the Shire of Cuballing that the Cuballing East road is their preferred route for heavy vehicles and this item will be a late agenda item for the Council meeting next week and the CEO believes they will possibly allow the AMMS upgrade.

The Cuballing East road is the road nominated for the grain freight routes and is the main road currently used by CBH for out loading grain to Brookton. The road is in good condition and suitable for the RAV 6 network AMMS Upgrade.

The vehicles allowed under a RAV 6 combination are as follows.

Following are extracts from the Main Roads Web Site regarding the Accredited Mass Management Scheme

## Western Australian Heavy Vehicle Accreditation (WAHVA) Scheme

A mandatory audit scheme which operators who wish to operate RAV's within Western Australia to perform any transport task as part of a commercial business or for profit must join - including interstate operators. The objectives of WAHVA are:

To improve road safety, increase productivity of the transport industry through adoption of good management by responsible operators, improve community confidence in the operation of heavy vehicle on state roads and satisfy the Commissioner of Main Roads (CMR) the person has systems in place required under the Road Traffic (Vehicles) Regulations 2014 to be accredited in the scheme so an application may be made to operate under a modified mass, dimension or access requirement. The scheme involves three mandatory modules Fatigue, Maintenance and Dimension and Loading, which operators are required to incorporate into their daily work practices. There is one optional module -The Mass Management Module - which is only required to be undertaken if an operator wishes to operate within the Accredited Mass Management Scheme. AMMS is a concessional loading scheme, similar to the schemes it replaced, i.e. the Certified Weighbridge Mass Management Scheme (CWMMS) and the Concessional Loading Bulk Products Scheme (CLBPS). AMMS has been developed in conjunction with the Ministerial Heavy Vehicle Advisory Panel to provide:

- a more flexible concessional loading scheme that allows more transport operators access to concessional mass limits, provided they have suitable loading controls in place;
- benefits to road assets owners, as it results in more transport operators controlling their loading, which reduces potential for overloading;
- clear publication of approved concessional networks, reducing the risk of transport operators travelling on non-approved routes; and
- greater assurance to road asset owners that vehicles are being loaded within the allowable limits, improving road infrastructure protection and sustainability, through transport operators being regularly audited.

AMMS allows for three (3) concessional mass levels and does not prescribe the specific loading control methods that must be used or restrict commodity types, which was the case with previous schemes. Rather, it allows for any product and any proven loading control method to be used. To be eligible for AMMS, operators must be accredited under the WA Heavy Vehicle Accreditation (WAHVA) Mass Management Module and for more information on the accreditation requirement.

## **AMMS Application Process**

Once a transport operator is accredited under the WAHVA Mass Management Module, to apply for an AMMS permit they are required to complete the AMMS Application Form, which includes a declaration stating they have appropriate loading control methods in place to ensure compliance with the allowable mass limits of the scheme.

### Level 3 AMMS is as follows:

### Level 3

(Road Tables below)

Concessional Road Networks: Vehicle combination must comply with all relevant conditions that apply to the equivalent vehicle combination under the Prime Mover, Trailer / Truck Trailer Combination Operating Conditions, unless otherwise exempt by this permit (ie Mass Limits).

In accordance with Section 6.4(2) of the Local Government Act 1995 and Regulation 35 of the Local Government (Financial Management) Regulations 1996, attached are the monthly financial reports.

- (1) Operating Statement by Function and Activity
- (2) Bank Balances and Investments
- (3) Outstanding Debtors.

#### Comments:

Council is required to prepare the Statement of Financial Activity as per Local Government (FM) Reg. 36, but can resolve to have supplementary information included as required.

## **Statutory Environment:**

Section 6.4(2) of the Local Government Act 1995

Local Government (Financial Management) Regulations 1996

- 34. Financial reports to be prepared s. 6.4
- (1) A local government is to prepare each month a statement of financial activity reporting on the sources and applications of funds, as set out in the annual budget under regulation 22(1)(d), for that month in the following detail -
- (a) Annual budget estimates, taking into account any expenditure incurred for an additional purpose under section 6.8(1) (b) or (c);
- (b) Budget estimates to the end of the month to which the statement relates;
- (c) Actual amounts of expenditure, revenue and income to the end of the month to which the statement relates;
- (d) Material variances between the comparable amounts referred to in paragraphs (b) and (c); and
- (e) The net current assets at the end of the month to which the statement relates.
- (2) Each statement of financial activity is to be accompanied by documents containing-
- (a) An explanation of the composition of the net current assets of the month to which the statement relates, less committed assets and restricted assets:
- (b) An explanation of each of the material variances referred to in sub regulation (1) (d); and
- (c) Such other supporting information as is considered relevant by the local government.
- (3) The information in a statement of financial activity may be shown-
- (a) According to nature and type classification;
- (b) By program; or
- (c) By business unit.
- (4) A statement of financial activity, and the accompanying documents referred to in sub regulation (2), is to be -
- (a) Presented to the council -
  - (i) At the next ordinary meeting of the council following the end of the month to which the statement relates; or

- (ii) if the statement is not prepared in time to present it to the meeting referred to in subparagraph (i), to the next ordinary meeting of the council after that meeting; and
- (b) Recorded in the minutes of the meeting at which it is presented.

Each financial year, a local government is to adopt a percentage or value, calculated in accordance with AAS 5, to be used in statements of financial activity for reporting material variances

#### 1. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of Accounting

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### **Critical Accounting Estimates**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### (b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

#### (c) Rounding Off Figures

All figures shown in this statement are rounded to the nearest dollar.

#### (d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

#### (e) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable.

The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

#### (g) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

#### (h) Inventories

#### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

#### (i) Fixed Assets

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (j) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Buildings30 to 50 yearsFurniture and Equipment4 to 10 yearsPlant and Equipment5 to 15 yearsRoads20 to 50 yearsFootpaths20 yearsSewerage Piping100 yearsWater Supply Piping and Drainage Systems75 years

#### (k) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

#### (I) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

- (i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)
  The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.
- (ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a currentliability.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (m) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### **Borrowing Costs**

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

#### (n) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

#### (o) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

## Community Development

#### Townscape

- Boundary statement signs: Jason Signs are in the process of manufacturing the 5 larger signs with the added pop of colour.
- The photo strut rubbish bins have been picked up from Exteria. Two of the bins will be
  placed in Yealering (one near the pub and one on the foreshore); and one bin will go
  near the pub in Harrismith.
- A picnic table setting for Yealering Caravan Park has been collected and will be installed shortly.

#### War Memorial

- WW2 War Memorial extension: Post 1 will have the two names of those Killed in Action (KIA) needing to be added to the WW1 memorial; and posts 2 and 3 have the names of the seventeen men KIA from WW2. The posts have been completed and picked up. They are to be installed on 11/04/19.
- Shire works crew will manufacture the metal tops for the posts. These will be done in due course.
- Costing for an in-ground plaque explaining the WW2 extension will be placed in the 2019/20 budget.

#### **Anzac Day**

- Planning with the ESO for the event.
- Confirmed so far: Shirley Howell, author of Joe Pearce: Beyond Hellfire and Back, to be
  the speaker; Linda Myers to read the blessing; Colin Plumb to raise the flag; David
  Kuppers to play the trumpet; Murray Lang to read the ode; Judy Lang to co-ordinate the
  kitchen; Cr Wes Astbury to be MC; invitations have been sent to the schools and police.
- Families of those connected to the soldiers from WW2 have been invited to the service. Stefie Green will be at the service to answer any questions the families might have regarding the new installation of the WW2 poles; and will have the last remaining copies of her book *Fallen but not Forgotten* for sale.

#### Wickepin Winter Weekend

Planning for the weekend of music and dance to be held over the weekend of 21 – 23

#### 10.2.07 - Lake Yealering Progress Association James Giddy Proposed Project

Submission To: Ordinary Council Location / Address: Whole Shire

Name of Applicant: Lake Yealering Progress Association – Kym Smith

File Reference: RC.LIA.2404

Author: Rebecca Pauley, Executive Services Officer

Disclosure of Interest: Nil

Date of Report:

#### **Enclosure/Attachments:**

Nil.

#### **Summary:**

Lake Yealering Progress Association seek permission from the Shire for James Giddy to paint murals on four buildings in Yealering town-ship, similar to the sheep mural painted on Wickepin Newsagency. The buildings have been selected based on the direction of traffic flow, capitalizing on tourist interest and with local wild life as the theme.

#### **Background:**

Council has received the following letter from the LYPA:

#### Lake Yealering Progress Association Inc

C/- Post Office Yealering WA 6372 yealeringprogress@outlook.com.au

10th April 2019

Wickepin Shire Council

Dear Mark & Councilors

Following the success of the recent art work of the sheep, created by James Giddy in Wickepin, Yealering Progress would like permission from the shire for James to create some pieces in Yealering.

Before James flew out to New Zealand, I met with him, we drove around town looking at various locations and we discussed the local wild life in this area. From a tourist point of view, these were the buildings that we would like shire to consider. Please keep in mind that these are only examples.

The caravan park ablution block: A Phascogale The old footy change rooms: Family of Swans

The west wall of the tennis club: Picture shows a dog but we are not keen. The eastern end section of the Yealering Town Hall: A Pink & Grey

We have chosen these locations due to the direction of the traffic in and out of town. I have attached photos of the locations, drawings and some photo shopped photos.

This is a project that the Yealering Progress would like to carry out with funds they have raised through various fundraising events. We have a budget that we feel could see 2 or 3 murals painted.

With the Living Lakes project been carried out on the lake, we feel this is another great tourist attraction to our town.

We look forward to hearing from you.

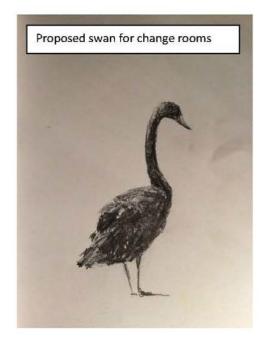

Yours Sincerely

Kym Smith Secretary

#### Comments:

These buildings have been selected because of the direction and flow of traffic and as points of interest for tourists, however these buildings are examples only.

- The caravan park ablution block phascogale.
- The old football change rooms a family of swans.
- The west wall of the tennis club the picture shows a dog, however the Association is not keen.

#### Strickland Park Economics – John Roberts

The total fee for conducting the project is \$29,650 (excl. GST) and \$32,615 (incl. GST).

Table 1 shows a detailed breakdown of the fees for the project. We would welcome the opportunity to discuss the proposed fees with the Shire and amend the budget if required.

#### Comments:

All four of the received proposals fits within the outline given to the consultants and all of them appear to be deliverable and would give an outcome for the Shire of Wickepin.

Council invited the four applicants to give a presentation to Council onsite on the 12<sup>th</sup> and 14<sup>th</sup> March. Each applicant was given 45minutes to present their proposals to Council.

The CEO believes the best value for money is the proposal from Whitney Consulting.

Dear Sir/Madam

#### RECENT INSPECTION: LAKE YEALERING BOWLING CLUB

Following an inspection of the above named premises the licensee was required to submit floor plans in accordance with r 11 of the *Liquor Control Regulations 1989*. The floor plans were lodged on 5 April 2019.

The licensed premises are redefined as the area outlined in red on the floor plans dated 5 April 2019.. It is a condition of the licence that the plans be retained on the premises and produced to an authorised officer of licensed premises on request.

This matter has been determined by me under delegation pursuant to s 15 of the *Liquor Control Act 1988*.

Should you have any queries in respect of this letter please contact Daniel Pearce on [08] 6551 4928.

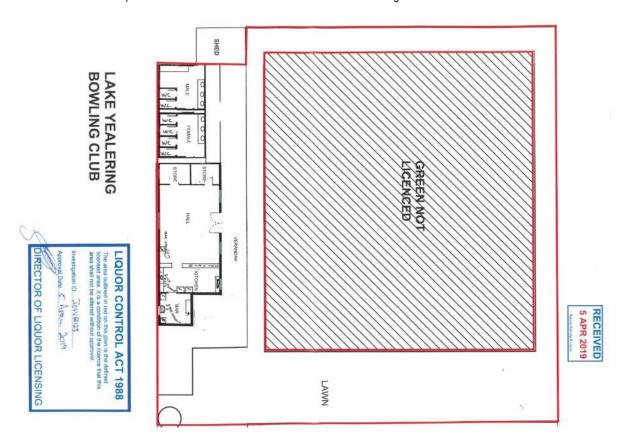

Yours faithfully

Lance Sgro

# Roads of Strategic Importance Funding

After many years of workshops, discussions and planning amongst the 42 local governments that make up the Wheatbelt North Regional Road Group and the Wheatbelt South Regional Road Group, it was an exciting day on Wednesday 27th March with an announcement from the Federal Government. The Deputy Prime Minister Michael McCormack joined representatives of the WSFR in Bindoon to mark the announcement of \$70 million commitment through the Roads of Strategic Importance (ROSI) initiative for the Wheatbelt Secondary Freight Route (WSFR). The WSFR Working Group has been working for the past three years to secure funding for a Project of Strategic Importance for the Agricultural and Transport sectors. The WSFR encompasses 80 connecting routes with over 4,400km of roads across the wheatbelt comprising of 42 local governments. This commitment will bring together the 42 Wheatbelt Shires and the Federal Government to (a) identify and prioritise projects across this network in coming months, and (b) will commence funding road improvements which will enhance productivity and driver safety across the Wheatbelt. These roads are local government managed roads, identified as 'secondary freight routes' and are essential for supporting key freight supply chains that support Grain, Mining, General Freight and the Tourism Industry. This means they carry a significant and highly valued freight task but are not located on a State or Federal road. The roads identified for upgrades were essentially the weakest links in the network. They are no longer fit for purpose and restrict the size and type of vehicle that can be used to carry out the required transport task. Further, the burden of managing these roads falls to Local Governments, and not necessarily in a fair or equitable way. ROSI will deliver works such as road realignments, road sealing, strengthening and widening, flood immunity, pavement rehabilitation and bridge and culvert upgrades, thus creating a more reliable and safer road network and improve access for higher capacity vehicles. The WSFR group's long-term goal is to secure funding support of approximately \$500 million for staged capital works over a 10 to 20-year time frame.

# Annual Bus Tour for Councillors Shire of Wickepin

Thank you to those who attended the annual bus tour. We covered many miles which is always a great way to see buildings, roads, natural assets and walk paths that our staff and communities have been busily looking after and enhancing. Thank you to Russell and Judy at the Oasis Hotel for the lovely lunch and congratulations to you for being at the helm for (coming up) to 20 years in June, 2019.

# **Local Volunteers**

At this change of seasons, I would like to take the opportunity to thank our local Volunteer Fire Control Officers and Brigades and our local Volunteer Ambulance Officers for the work they have done over the past season. They have been on hand at the drop of a hat to ensure that unforeseen events have been dealt with and safe outcomes have eventuated.

Thank you to all concerned.

# 12. Chief Executive Officer's Report

Submission To: Ordinary Council Location / Address: Whole Shire

Name of Applicant: Mark Hook, Chief Executive Officer

File Reference: FM.FR.1211

Author: Mark Hook, Chief Executive Officer

Date of Report: 11 April 2019

# Roads to Recovery

The Shire President was sent a letter regarding the increase of the 2019/2024 Roads to Recovery Allocations. The new allocation for the Shire of Wickepin is \$1,635,345, an increase of \$327,069 on the announced allocation of \$1,308,276 advised back in December 2018.

# Landgate Unimproved Valuations.

The CEO has received the revaluation for unimproved valuation for 2019/2020. Overall unimproved values have been increased consistently across the shire but there has been a slightly higher increase in the Eastern Portion of the Shire. The overall unimproved valuation for the Shire of Wickepin is \$140, 761, 1900 an overall increase of 6.09% on last year's valuations.

# Main Roads - Wheatbelt

The CEO attended a meeting with Mr Craig Manton Main Roads Wheatbelt to discuss the issues raised at the last Council meeting. At this stage some of the matters raised in the letter have been attended to but there are still major issue with Main Roads not replacing the delineators on guide posts on the main roads network.

### **TELSTRA - ADSL**

The CEO has been holding discussions with Telstra regarding the issues with the ADSL network in Wickepin and the fact that Wickepin will be a satellite installation for NBN. The CEO has requested what can Telstra do for Wickepin regarding faster and better internet connections as the current ADSL network is fully utilised and no ports are available. Telstra has advised the CEO that the upgrade to ADSL2 has just been undertaken and there are 94 x ADSL2 ports available in Wickepin. For anyone connected to the exchange and who had ADSL1 can switch to ADSL2 but the upgrade to ADSL 2 is not automatic and it appears people have not switched over. The CEO will continue to discuss this matter with Telstra to find better options for businesses in Wickepin for better internet connectivity and speed at a reasonable cost. One of the options being considered is the feasibility of having Telstra Fibre installed to the council office and what the costs for this facility would be. If it is reasonable other businesses may wish to do the same.

#### Staff

The CEO has advertised for a plant operator after the recent resignation of Mr Peter Arnol. Interviews for this position will be held next week. The Manager of works has put Mr Robert Whibley in the construction grader and this appears to be working out well.

# Illegal car port Lot 37 Roberts Street.

The CEO has given notice to the owner of Lot 37 Roberts Street regarding the unauthorised timber carport.

The notice advices the following: Remove, demolish and dismantle the carport within 30 days or Attain retrospective building approval by engaging an independent registered Building Surveyor to approve a BA18 – Certificate of Building Compliance, then submit it along with a BA13 – Application for Building Approval Certificate. The Shire can then approve a BA14 – Building Approval Certificate.

#### Wickepin Police Station

The CEO has been advised that the two positions at the Wickepin police Station have been filled and the names of the officers will be released soon. Both Police Officers will be residing in Wickepin.
