## SHIRE OF WICKEPIN QUESTIONS FROM THE PUBLIC

The Shire of Wickepin welcomes community participation during public question time. The following is a summary of procedure and a guide to completion of the required form.

- a. The person asking the question is to give their name and address prior to asking the question.
- b. Questions are to be directed through the chair, with the Presiding Member having the discretion of accepting or rejecting a question and the right to nominate a Councillor or Officer to answer.
- c. In order to provide an opportunity for the greatest portion of the gallery to take advantage of question time, questions are to be as succinct as possible. Any preamble to questions should therefore be minimal and no debating of the issue between the Gallery, Councillors or Officers is permissible.
- d. Where the Presiding Member rules that a member of the public is making a statement during public question time, then no answer is required to be given or recorded in response.
- e. Questions which are considered inappropriate; offensive or otherwise not in good faith; duplicates or variations of earlier questions; relating to the personal affairs or actions of Council members or employees; will be refused by the Presiding Member as 'out of order' and will not be recorded in the minutes.
- f. Where a member of the public submitting a question is not physically present at the meeting, those questions will be treated as an item of correspondence and will be answered in the normal course of business (and not be recorded in the minutes).
- g. Questions from members of the public that do not comply with the Rules of Question Time or do not abide by a ruling from the Presiding Member, or where the member of the public behaves in a manner in which they are disrespectful of the Presiding Member or Council, or refuse to abide by any reasonable direction from the Presiding Member, will be ruled 'out of order' and the question will not be recorded in the minutes.
- h. Answers to questions provided in good faith, however, unless reasonable prior written notice of the question is given, answers should not be relied upon as being totally comprehensive.
- i. Where a question (compliant to these rules) is raised and is unable to be answered at the meeting, the question shall be 'taken on notice' with an answer being given at the next appropriate Council Meeting.
- j. Public Question Time is set for a maximum period of 15 minutes, and will terminate earlier should no questions be forthcoming.
- k. To enable all members of the public a fair and equitable opportunity to participate in Public Question Time, each person shall be provided a maximum two minutes time limit in the first instance, in which to ask a maximum of two questions (whether these are submitted 'in writing' or 'from the floor'). A question may include a request for the tabling of documents where these are relevant to an issue before Council.
- l. Questions to be asked at the meeting will be registered, and the priority for asking questions shall be firstly 'questions on which written notice has been given prior to the meeting' (that is, prior to 12 noon on the day immediately preceding the meeting) and secondly, 'questions from the floor'.
- m. Should there be time remaining on the initial period for Public Question Time (i.e. 15 minutes) after all members of the public have posed their initial allotment of two questions, the Presiding Member will then allow members of the public to sequentially (in accordance with the register) ask a further two questions (with a two minute time limit) until the initial period for Public Question Time has expired.
- n. Any extension to the initial period for Public Question Time is to be limited to a period that will allow sufficient time for any remaining members of the public to ask their initial allotment of two questions.

#### 11.1.1 DCEO Natalie Manton

The Shire of Wickepin has been working with the Department of Regional Development to finalise the Financial Assistance Agreement ready for signing. The final draft is ready for signing once the hold has been lifted as noted in the statement below:

*A change of government understandably brings new priorities and a period of adjustment. It is encouraging that the new government has made a strong commitment to regional development and Royalties for Regions. A renewed focus on growing jobs and the economy is consistent with the current strategic direction of regional development.*

*It will take some time for before the new government is settled in and the Department has had the opportunity to brief a new Minister on the Royalties for Regions program. During this period the Department will not be considering new initiatives and as a general rule will not be progressing Royalties for Regions funding agreements.*

*Approved projects with funding agreements in place, should continue to be delivered as normal, unless advised otherwise.*

*As the priorities of the new government become clearer over coming weeks, the Department will keep project partners informed.*

**Name of Applicant:** Peter Vlahov, Manager Works & Services  
**File Reference:** PS.TEN.2110  
**Author:** Peter Vlahov, Manager Works & Services  
**Disclosure of any Interest:** Nil  
**Date of Report:** 9 May 2017

**Enclosure / Attachment:** Nil

**Background:**

As advised by email on the 23/03/2017 the old rubbish truck WK2433 had been in an accident and was turned over onto its side on the 22/3/2017.

**Comment:**

LGIS have advised that the vehicle will be written off and they have received two tenders for the salvage. Council was requested to tender for the wreck. The CEO was advised that one of the tenders was for \$4,000 and the MWS believes it is not worthwhile tendering for the wreck at this price as all Council may require was the hydraulic rubbish bin lifting gear.

The CEO has signed the deed for the settlement of the claim based on the market value of \$42,249 less excess of \$300 giving a settlement total of \$41,949.

Council's insurance register had the following amounts. Council policy is market value and not an agreed value.

9	P2433	2008 Hino 816 Garbage Truck	N04CTV14328	WK2433	\$	65,000
---	-------	-----------------------------	-------------	--------	----	--------

As requested by Zurich Australia the vehicle has already been delicensed and the plates returned to the Department of Transport.

Council needs to replace the 2008 Hino 816 Garbage Truck – WK2433, for the following reasons:

1. Truck has been extensively used for the last four years
2. Used for carting paper product and general cleaning materials for public toilets halls etc
3. Carting swept up materials from road sweeping (keeps dust down)
4. Carting pool chemical as all hazardous materials must be carted in an enclosed body
5. Transferring chairs etc from halls community centre
6. Carting freight as required
7. Towing bob cat (ute is too small)
8. Rubbish bin and general rubbish pick up as and when required
9. Transferring of refuse from transfer stations
10. Inspection of council tips and refuse stations
11. Used by Parks and Gardens for towing Torro mowers
12. Call outs for trees across roads
13. Sewerage Ponds and pipeline inspections
14. Playground inspections
15. Laying traffic Counters on a regular basis

The current staff member is using the mechanics vehicle and when the mechanic arrives, this vehicle will be required for the above duties.

The Manager of Works has requested quotes from the following companies for the replacement of 2008 Hino 816 Garbage Truck – WK2433.

1. A & D Engineering – Body Only
2. WA Hino
3. South West Isuzu

The following quotes have been received as of the 9 May 2017:

Company	Vehicle	Change Over GST Exempt	Accessories
Rolsteel Enterprises ( A & D Engineering)	Bolt on enclosed body with tow bar	\$11,150	Nil
WA Hino	300 series 716 medium Auto Tipper with Rolsteel bolt on body 2 way tail gate conversion tow bar 50mm ball	\$66,809.64	Nil
WA Hino	300 Series 917 medium dump	\$57,250.15	Nil
WA Hino	300 series 716 medium Auto Tipper body	\$55,659.64	Nil
Southwest Isuzu	2017 Isuzu NH NPR 65-190 Tipper body	\$47,500.00	Tow bar \$1,221 12v24v reducer \$286 Floor Mats \$99 Tinted Windows \$385 Canvas Seat Covers \$495 Dual Beacons on ski bar \$1,221 Licence Inspection \$275.00 Extended Warranty to five years \$2,450
Southwest Isuzu	2017 Isuzu NH FRR 75-190 Tipper body	\$50,500.00	As above
Southwest Isuzu	2017 Isuzu NH FRR 107-210 Tipper body	\$66,790.00	As above

This matter has been brought to Council for purchase as this vehicle will be an unbudgeted expenditure within the 2016/2017 Financial Year.

If Council replaces the written off truck all the above figures do not include additional stamp duty or licence fees if the chosen vehicle is unable to be delivered by the 30<sup>th</sup> June 2017.

WA Hino and Southwest Isuzu have advised that they can be delivered prior to the 30/06/2017 if ordered by end of May 2017.

It is the view of the Chief Executive Officer that Council would be able to find the difference between the insurance amount of \$41,949 and the Purchase price of the new truck with enclosed body of \$66,809.64 leaving a balance of \$24,860.64 from the expected budget surplus.

The Manager of works preference is the Hino 300 series 716 medium Auto Tipper with Rolsteel bolt on body 2 way tail gate conversion tow bar 50mm ball at a purchase price of \$66,809.64.

**SHIRE OF WICKEPIN**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 30 April 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of Accounting**

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**Critical Accounting Estimates**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**(b) The Local Government Reporting Entity**

All Funds through which the Council controls resources to carry on its functions have been included in this statement.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

**(c) Rounding Off Figures**

All figures shown in this statement are rounded to the nearest dollar.

**(d) Rates, Grants, Donations and Other Contributions**

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

**(e) Goods and Services Tax**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable.

The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**SHIRE OF WICKEPIN**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 30 April 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(f) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

**(g) Trade and Other Receivables**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

**(h) Inventories**

***General***

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

***Land Held for Resale***

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

**(i) Fixed Assets**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

**For the Period Ended 30 April 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(j) Depreciation of Non-Current Assets**

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation rates and periods are:

Buildings	30 to 50 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Roads	20 to 50 years
Footpaths	20 years
Sewerage Piping	100 years
Water Supply Piping and Drainage Systems	75 years

**(k) Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**(l) Employee Benefits**

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

**(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits)**

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the Shire has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Shire expects to pay and includes related on-costs.

**(ii) Annual Leave and Long Service Leave (Long-term Benefits)**

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the Shire does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

**SHIRE OF WICKEPIN**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**For the Period Ended 30 April 2017**

**1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(m) Interest-bearing Loans and Borrowings**

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

***Borrowing Costs***

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

**(n) Provisions**

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

**(o) Current and Non-Current Classification**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

**Enclosure / Attachment:** Community Grant Applications 2017

### Background:

Each year the Shire of Wickepin makes a budget provision of a maximum of 2.5% of the previous year's levied rates to distribute to community and sporting organisations. This equates to \$36,266 for the coming funding period. The objective of the funding is to establish or improve playing areas or buildings necessary for the conduct of sport or for community use, support or major sporting and community events, support for sporting or coaching clinics, to assist community groups in establishing a service, activity seen as a need for the betterment of and improvement to the enjoyment of life within the community, and increasing visitors to the region.

Details of the funding guidelines are provided in Policy Guidelines 3.1.6 – Sponsorship, Contributions and Donations to Sporting and Community Groups.

The following table provides a summary of funding granted to community and sporting groups as part of the Shire of Wickepin Community Grants process, as well as donations, over the past 7 years. The Shire of Wickepin has supported and subsidised sporting and community groups in areas such as in-kind, works, equipment hire, Community Sport and Recreations Facilities Funding, water for bowling greens, waiver of bonds, oval marking as well as transport and refreshments for students but these have not all been included in the analysis.

*\*Note for financial table: Toolibin Tennis Club: \$4000 grant approved in 12/13 but not spent in cash. Assistance in-kind given.*

Over the past few years staff has encouraged all requests for funding from the Shire of Wickepin to be submitted via the Community Grants process so that Council can clearly identify the grant recipients and amounts. Early adverts promoting the Community Grant were published and emailed from the 1 December 2016. In 2013 and 2016 the Shire of Wickepin Community Grant application form was modified to provide applicants with a greater understanding of the grant application requirements and gain more detailed information about the proposed funding request.

Letters were sent out to all clubs and community groups with the funding application clearly stating that no late applications will be accepted and that applications must be complete and have financial accounts, detailed budgets with quotes and letters of support included. Applicants were given an extra two weeks this funding round to submit their applications.

The standard of applications over the past few years has been weak and the applications still lack detailed planning, quotes, evidence of support and all did not meet the required guidelines. There appears to be the attitude that Shire will fund projects irrespective of thorough planning or meeting of grant guidelines.

The Shire of Wickepin invited applications for the 2017/18 Community Grants in early March 2017 and applications closed on Wednesday 28 April at 4.00pm. Applications were received from the following groups on the appropriate form and prior to the advertised deadline:

<b>2017/8 Budget Requests</b>

Yealering Progress Association is proactive in local community support and improvement. They have a diverse and active committee and welcome members from the greater community.

The Tourism Brochure has been well thought out with a project and distribution plan. Shire of Wickepin has a tourist brochure however this extra brochure will focus heavily on Yealering and the facilities available for caravanners and tourists.

The benefit to the greater community will be the inclusion of tourist drive suggestions to other townsites and places of interest within the shire including recreational, cultural and educational facilities.

The amount requested is close to Council's general philosophy of funding 100% up to \$2000.

<b>Applicant 2</b>	<b>Wickepin P &amp; C</b>

The group is active with approximately 20 members though more are encouraged to be involved. The Nature Playground project has been in the pipeline for a number of years and CDO received minutes indicating the project and the Committees and Principals support. Fundraising has been and is currently being undertaken to support the project.

The amount requested fits within Council's general philosophy to fund 50% of projects \$5000 and above.

<b>Application 3</b>	<b>Lake Yealering Bowling Club</b>
<b>Purpose of Organisation</b>	Playing bowls and hosting league clubs from Narrogin, Williams, Pingelly and Brookton.
<b>Incorporated</b>	Yes
<b>Registered for GST</b>	No

<b>Purpose of funding:</b>	Installation of Demountable Toilet Block
<b>Alternative funding sought:</b>	Limited evidence In-kind work
<b>Support of members and general community eg letters of support or meeting minutes provided</b>	Letter of support from Yealering Progress Association No minuted support for the project from the Committee Letter requesting support to Council from President of Yealering Bowling Club
<b>Total project cost:</b>	\$13,721.00
<b>Funding requested:</b>	\$13,721.00
<b>Project budget and quotes supplied:</b>	Yes Cash quotes handwritten by committee for a number of contractors. Email quote to CEO for plumbing. Budget supplied included purchase of toilet block which does not fall into this project as Community Grants do not consider retrospective funding. In kind volunteer hours have not been added to total budget – if they had total budget for this project would be \$15,721.00.

The Lake Yealering Bowling Club currently has 18 playing members and a number of social members. Social bowls is played on weekends and the club participates in the Upper Great Southern Bowls League and participates in their pennant, league and open days. The club also hosts corporate bowls.

The Bowling Club needs to be commended on their playing greens and the facilities on offer.

The club has ongoing financial commitments: Per the CSRFF grant for the new synthetic Bowling Green, Yealering Bowling Club are required to pay the Shire of Wickepin an amount of \$7,900 per year for the following 12 years until 15 June 2026. This amount has not been taken out of the current financial balance – once paid the bank balance will be \$3,508.38.

Based on previous experience in managing building projects it is anticipated that there may be significant variation to the current estimates. The project requires more comprehensive project planning and budgeting with more accurate quotes required.

Currently it presents as an unprepared idea following the immediate availability of an inexpensive demountable toilet block on offer in town. Building permission will need to be given by Council before the project can go ahead. Environmental factors need to be considered with the leach drain running towards the lake.

This project has the potential to significantly impact on the financial viability and sustainability of the Yealering Bowling Club.

Wickepin History Book Committee are a small group of 5 members who do an extraordinary amount of volunteer work with regards research and documenting the history and lives of the Shire. The group operates out of the Old Road Board Office in the Wickepin Town Hall.

They have published three local history books including 'Other Fortunate Lives'. The sale of these books is their main source of income. The books are sold through the Community Resource Centre.

They have had photographic displays over the years using scanned photos. There is an active interest in the photos they exhibit. They also have photos on loan which need to be copied and returned to the respective owners.

The group plans to have the printed photographs available and in an organised manner for ease of display and sharing when requests come through. They will be able to set up personalised displays for events held within the shire once the photos are correctly copied and catalogued.

Supporting the Wickepin History Book Committee would be beneficial to the Shire as a whole.

### 10.2.07 – Subdivision Lot No 6109, Tincurrin

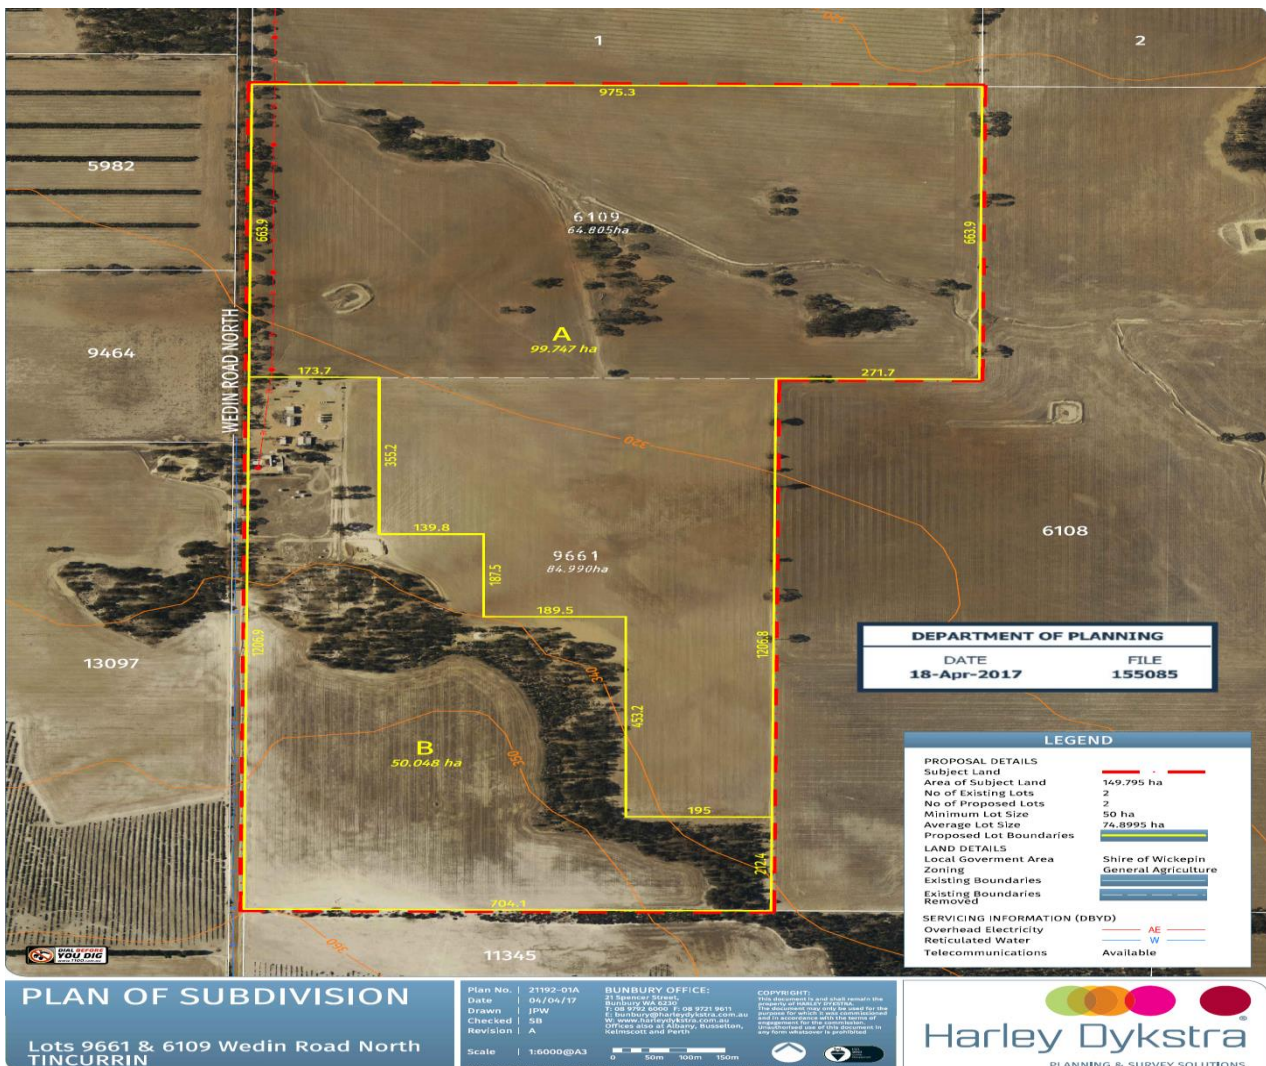

**Submission To:** Ordinary Council  
**Location / Address:** Lot No 6109 Tincurrin  
**Name of Applicant:** Western Australian Planning Commission  
**File Reference:** LP.SBD.1704  
**Author:** Mark J Hook, Chief Executive Officer  
**Disclosure of any Interest:** Nil  
**Date of Report:** 4 May 2017

**Enclosure / Attachment:**

1. WAPC Letter Ref 155085
2. Location Plan
3. Harley Dykstra application to WAPC
4. WAPC E lodgement forms ID: 2017-207699
5. Harley Dykstra Plan of Subdivision
6. Certificate of Title Volume 1436 Folio 546 and Volume 1148 Folio 349

**Background:**

Council has received the attached letter from the Western Australian Planning Commission reference number 155085 requesting comment on the subdivision Lot No 6109 No street address available Tincurrin.

**Comment:**

The proposal simply seeks to adjust the boundary between Lot 6109 and 9661 to better reflect the features of the land. The existing southern boundary of Lot 6109 is proposed to be moved further south adjacent to existing vegetation which is located central to Lot 9661 and overall allows for better farm management. As shown on the Plan of Subdivision, the proposed subdivision will result in the creation of Lot A (99.7ha) and Lot B (50.0ha). Proposed Lot B will maintain the existing rural infrastructure, including existing services. Lot B will maintain an existing aerial power connection.

As per Western Power's Policy, no changes will be required for the existing power connection. Both proposed lots will continue to be used for rural purposes, as per its existing 'General Agriculture' zoning.

Lots 6109 and 9661 are both partially within a 'bushfire prone area' as indicated on the Department of Fire and Emergency Services mapping. However, due to the nature of the proposal there is no need for any further bushfire management inputs. It is also noted in this regard that large portions of the property are outside of bushfire prone areas as indicated on the Department of Fire and Emergency Services mapping and therefore any future development on the site can easily be located away from bushfire hazards.

The proposal has also been forwarded to the following Government Departments for comments:

1. Department of Mines and Petroleum
2. Department of Parks and Wildlife
3. Water Corporation
4. Western Power

The Chief Executive Officer cannot see any issues with the proposed subdivision and Council should only impose condition B1 from the WAPC Model Subdivision Conditions Schedule May 2016 as follows.

New Code	Building and Use Condition	Related Code	Summary	Situation	Policy Link
B1	All buildings and effluent disposal systems having the necessary clearance from the new boundaries as required under the relevant legislation including the Local Planning Scheme and Building Regulations of Australia. (Local Government)	Ba1	Boundary and effluent disposal clearance	On local government advice, where changes have the potential to impact on setbacks of existing dwellings, and there may be existing effluent disposal systems on site.	SPP 3.1 Residential Design Codes

**Statutory Environment:**

*Planning and Development Act 2005*

*Planning and Development (Local Planning Schemes) Regulations 2015*

*Shire of Wickepin TPS 4*

*Local Government Act 1995*

*Model subdivision conditions WAPC Schedule*

**Policy Implications:** Not applicable.

**Financial Implications:** No Costs to Council

**Strategic Implications:** Not Applicable

***Day Labour, Plant and equipment exemption approved - 9 May 2017***

*The Commonwealth Government has approved the temporary exemption allowing Western Australia to seek reimbursement for the use of local government labour, plant and equipment when rebuilding damaged public assets.*

*Following the Flooding in Western Australia event, the OEM had requested an exemption to the standing day labour provisions to allow local governments to seek assistance to fund their own workforce when undertaking disaster reconstructions works on local government-owned assets. The Commonwealth Government extended the exemption to also include reimbursement for plant and equipment.*

### **Shire of Wickepin Strategic Plan**

It is time again to start the process for the update of the Shire of Wickepin Strategic Plan 2012-2022. The CEO will be requesting quotes from suitable firms to undertake this process in compliance with the Department of Local Government Integrated Planning and Reporting framework. All local governments are required to plan for the future of their district under Section 5.56 (1) of the Local Government Act 1995. Regulations under Section 5.56(2) of the Act outline the minimum requirements to achieve this.

The minimum requirement of the plan for the future is the development of:

- A Strategic Community Plan; and
- A Corporate Business Plan.

There are also separate provisions regulating the Annual Budget and Annual Report.

Following is an extract from the Department Website regarding Integrated Planning.

*Integrated planning and reporting gives local governments a framework for establishing local priorities and to link this information to operational functions. Three major parties are involved in the development of an integrated plan: the local government administration, the Council and the community. Each party has a unique role and responsibilities for effective and sustainable integrated planning and reporting, with the Local Government (Administration) Regulations 1996 requiring each local government to adopt a Strategic Community Plan and a Corporate Business Plan.*

*A successful integrated planning and reporting process will deliver the following outcomes:*

- *a Strategic Community Plan that clearly links the community's aspirations with the Council's vision and long term strategy*
- *a Corporate Business Plan that integrates resourcing plans and specific council plans with the Strategic Community Plan, and*
- *a clearly stated vision for the future viability of the local government area.*

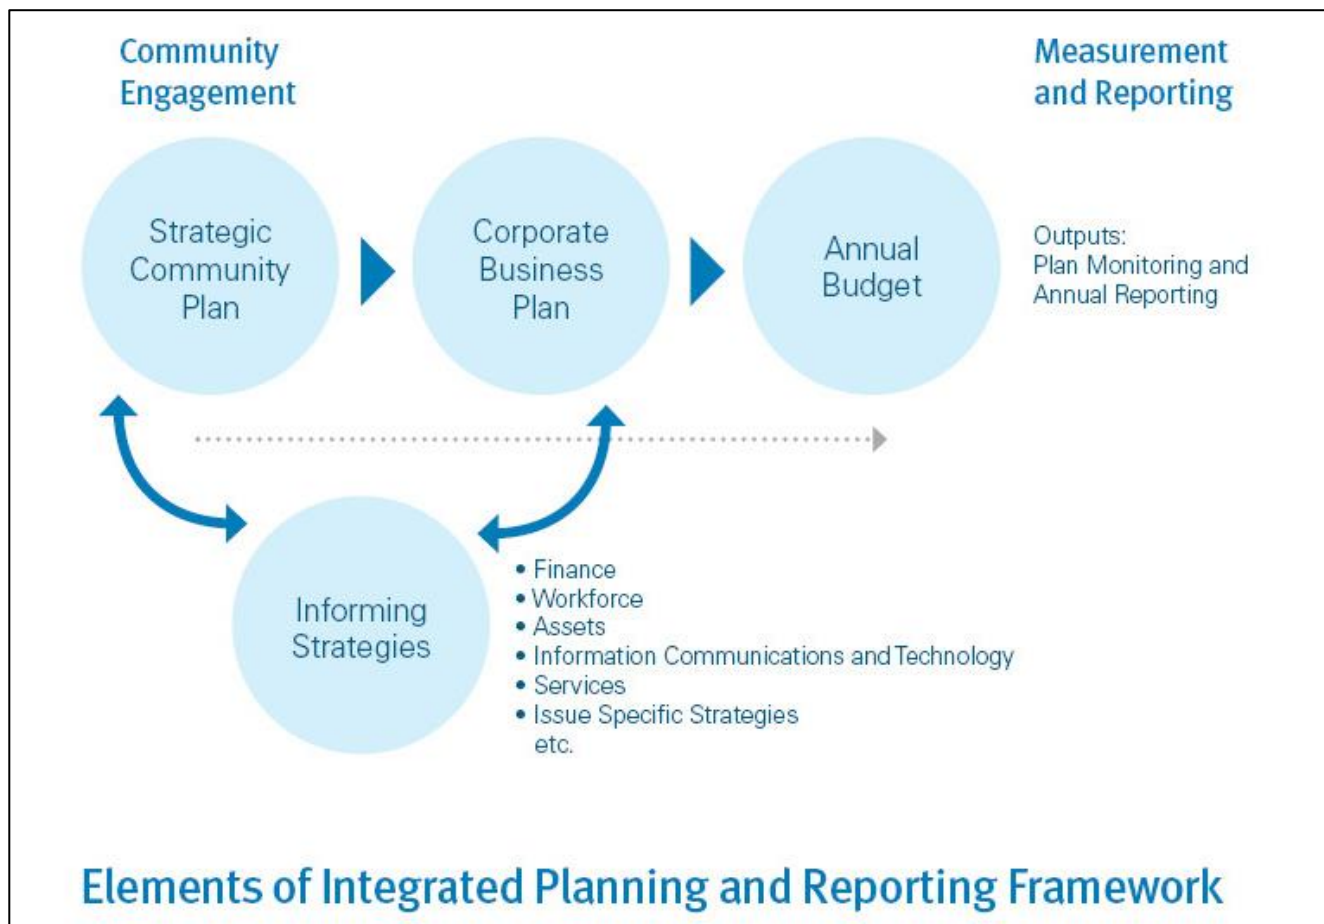

*The Integrated Planning and Reporting Framework and Guidelines have been developed as part of the State Government's Local Government Reform Program. They reflect a nationally consistent approach to integrated planning as expressed by the Council of Australian Governments' Local Government Planning Ministers' Council.*

*The Framework:*

- *recognises that planning for a local government is holistic in nature and driven by the community*
- *builds organisational and resource capability to meet community need*
- *optimises success by understanding the integration and interdependencies between the components,*
- *and emphasises performance monitoring so that local governments can adapt and respond to changes in community needs and the business environment.*

*The Framework and Guidelines provide a process to:*

- *ensure community input is explicitly and reliably generated*
- *provide the capacity for location-specific planning where appropriate*
- *update long term objectives with these inputs*
- *identify the resourcing required to deliver long-term objectives, and*
- *clearly convey long term financial implications and strategies.*
